

## APi National Service Group on the GSA 03FAC Schedule

We didn't become the leader in the industry simply because our services are better; we lead because our *service* is better. We understand what needs to be done, we work within the constraints you give us, and we know that *now means now*, not next month.

APi National Service Group provides a single-source solution perfectly suited to the government marketplace.

**03FAC Schedule: Facilities  
Maintenance & Management**

**Contract # GS-21F-0060W**

From new construction to retrofit, an inspection or repair work, APi NSG can handle it all. We have over 9000 employees, including nearly 6000 technicians, working at over 150 branch office locations across the United States. APi NSG offers its employees ongoing safety and technical training on platforms such as NICET licensing, the LEED certification program and Building Information Modeling (BIM) technology.

APi NSG brings you the resources, leverage, integrity and technology for a consistently excellent customer experience. Through agreements with the U.S General Services Administration (GSA), APi NSG can extend high touch services along with the finest systems to federal and government customers.
